

Sock Filters

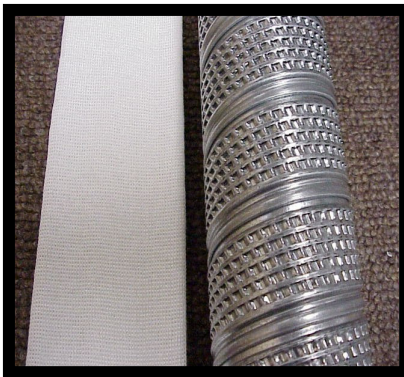

Wood Fiber

Feature: Filtration Systems' media has lots of wood fibers

Advantage: Competitors use less wood to cut cost

Benefit: Wood absorbs water & acids in filtrate

Socks & Center Tubes

Feature: Filtration Systems' socks & tubes made in-house

Advantage: Competitor's buy from outside

Benefit: Cost control, quality, & availability

String Spacing

Feature: Filtration Systems has string spacing every ¼-inch

Advantage: Competitors have 1" string spacing

Benefit: More stabilized media = higher filtration efficiency

Media

Features: Filtration Systems uses natural cotton media

Advantage: Competitors use cheap textile waste

Benefits: Higher-Purity filtrate
