

Pleated Paper Filters

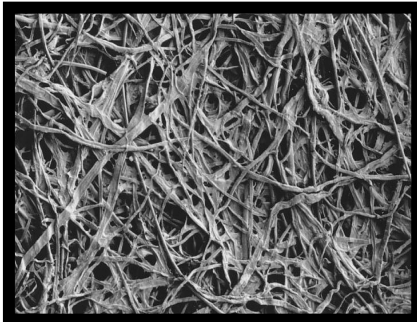

Computer Controlled Pleater

Feature: Filtration Systems uses a computer-controlled pleater

Advantage: Competitors use older mechanical pleaters

Benefit: Consistent sharp pleats = Reliable performance

Cellulosic Media

Feature: Filtration Systems has Beta Ratios for its cellulosic media

Advantage: Competitors use only a “nominal” rating

Benefit: Customers know the cleanliness of their fluids

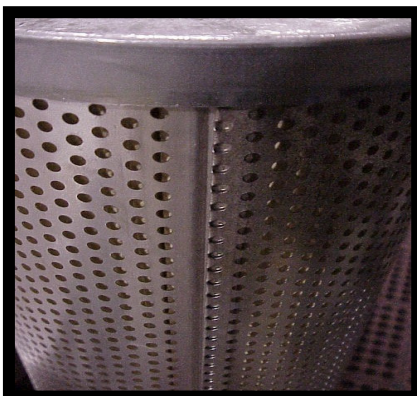

Mullen & Frazier

Feature: Filtration Systems tests the media characteristics of filters

Advantage: Takes the guess-work out of matching competitor’s filter

Benefit: Risk-free alternate-sourcing from Filtration Systems

Lock-Seam

Feature: Filtration Systems’ filter shells are lock-seamed

Advantage: Most competitors spot weld

Benefit: No sharp edges when servicing filter
